CONALL KELLY

*School of Mathematical Sciences, University College Cork, Ireland*  
*E-mail: conall.kelly@ucc.ie*

**Keywords:** stochastic difference equations; discrete systems with noise; stability and stabilization

The focus of the session is dynamics of stochastic difference equations and systems of such equations. The topics include, but are not reduced to stabilization by noise, stability and control of discrete stochastic systems, and asymptotic properties of non-autonomous systems. Submissions on connections between stochastic differential and difference equations are also welcome for this session.
